OUR HOME

Generally, unmitigated pride is expressed when those two words are voiced. "Our home" is an ideal, the ultimate of ambition, a goal worth the highest concept of humanity. "Our home" is a canopy over our Constitution and our freedom. "Our home" may be small or large, shabby or palace, on a plain or surrounded by velvet lawn, regardless of its physical appearance or location, it is there we find a haven of peace, love and tranquility. Is there where every facility of Government is an arm to protect us. It is there where sorrow and joy are magnets pulling us back or impelling us forward, to do better and bigger things. "Our home" are two mighty big words.

A man's financial status is measured by his home. A woman's ability is measured by the condition of her home. Home ownership may be the crux between success or failure. A young man who owns his own home is most likely to get the best job. "Our home" is more than housing; it is a palace that two people build.

the site will not be so severe as when the area is bordered by new homes. Perhaps by the time the area is developed with new homes the residents will have a park to overlook rather than a huge pit with trucks pulling in and out most of the day.

Attorney Papp estimated that the operation would take approximately a year to fill the pit.

I haven't any cooking secrets ... just a new automatic GAS RANGE

The 1950 models make cooking "easy as pie" even for beginners!

You can follow any good recipe exactly when you have a new automatic gas range. You know that your oven, for example, will stay at the specified temperature all during baking. Or if you're doing top-of-range cooking, there's no whisking a pan off the burner to prevent boiling-over. You just turn the burner down and boiling subsides at once. My suggestion... if you want your cooking to be better and easier... see the new automatic gas ranges at dealers' or your Gas Company. You'll find a model to suit your individual needs. The prices... they're good news, too. New gas ranges cost less to buy... less to operate!

Among the many makes of gas ranges on display is this beautiful new **WESTERN-HOLLY**... a CP model. Others you'll see include Caloric, Gaffers & Sattler, Grand, Hardwick, Magic-Chef, Maytag, Occidental, O'Keefe & Merritt, Roper, Tappan, Wedgewood.
